Mitsubishi Logistics Corporation

Mitsubishi Logistics Obtains CEIV Pharma Certification

Mitsubishi Logistics Corporation (TOKYO: 9301; Mitsubishi Logistics) announced today that it has obtained CEIV Pharma certification from the International Air Transport Association (IATA) at Kansai Airports.

CEIV Pharma is a quality certification program for pharmaceutical product transport that was established by the IATA. It is compliant with GDP guidelines (quality management standards for pharmaceutical product transport) of the EU and the World Health Organization.

Mitsubishi Logistics participated in [the KIX Pharma Community](#), which is hosted by Kansai Airports, and worked to improve transport quality, aiming to obtain the certification that was awarded on April 30, 2019.

In the future, Mitsubishi Logistics will continue to provide a wide range of high-quality logistics services, from international transport to storage and delivery and will support the supply chain of pharmaceutical products.
